Digital Government

A secure, market-proven platform for government institutions.

✓

ISO-certified with security controls and standards.

Ensure compliance with Stack9's ISO 27001 environment and WCAG 2.1 AA accessibility standards.

Leverage digital capabilities to transform the way you work and interact with members of the public.
Intuitive and easy to use with a close-to-zero learning curve.

Use Stack9's modular flexibility and microservices to support your ever-changing technology needs.
With our Digital Government platform, you can perform full system migration - or incremental migrations - to ensure government services continuity.

All the configurable modules you need:

- e-voting

- e-submissions

- calendars

- committees

- Inquiries and submission management

- Public API Management

- e-petitions

- Hansard (Transcriptions)

- Document assembly and automation

- Meeting/Parliament bot for Microsoft Teams

- Records compliance management

- Votes and minutes
